

Nylon ties are widely used for laying and installation of communication cables and various electrical equipment. Using cable ties, the cable is assembled into bundles, broken up into separate groups, attached to organizers, brackets, trays and any other suitable surfaces and equipment. Ties made of nylon and are designed for installation and operation in the room.

Ordering Table

Detailed characteristics

Characteristic	Value
Type	Non-opening
Temperature ranges	Storage from -40 to +80 °C. Installation from 0 to +80. Operation from 0 to +80 °C
Protection level	White
Number of ports for main cables	1 year
Material	Nylon PA66
Length	100, 150, 200 mm / 150, 200, 300 mm / 200, 300, 400 mm
Width	2.5 mm / 3.5 mm / 4.8 mm
