

NMC-FT-TOOL

Fast termination tool for Fast Termination system

The new NIKOMAX "Fast Termination" system is a fresh look at the installation of modular solutions. The solution is based on a special tool NMC-FT-TOOL, which allows you to instantly terminate the keystone modules, making it easier to work and saving time. Split the cable on the module's pins, insert it into the tool and just squeeze the handles! Accurate and quality termination of the module in one push!

During the closing process, the modules are not damaged and are suitable for repeated re-fitting if necessary. IDC contacts of the Fast Termination modules are also compatible with a conventional percussion tool with a 110 or KRONE type knife .

Ordering Table

P/N	Description	Individual package		Freight package		
		Dimensions, mm	Weight, kg	Quantity	Dimensions, mm	Weight, kg
NMC-FT-TOOL	Tool for fast termination	215x210x40	0.310	40 pcs.	515x400x230	12.4
NMC-FT-INSET	Spare attachment	40x25x25	0.023	—	—	—

Detailed characteristics

Characteristic	Value
Warranty	1 Year
Color	Metallic, with orange handles. Nozzle - red
Temperature ranges	Storage from -20 to +70 ° C. Operation from -10 to +50 ° C
Packaging	Individual - Blister
Additional features	NMC-FT-INSET spare attachment included
Frame Material	Aluminium alloy
Handles	Plastic
Mechanism of return of handles	Yes
Type of crimp modules	NIKOMAX Fast Termination («FT», «ST», «AN», «LS» series)
Crimping section	The removable, replaceable nozzle NMC-FT-INSET
