

NMC-KJSA2-ET-MT

Essential Series keystone jack , Shielded, Toolless, 180 degrees, Category 6A

NIKOMAX Keystone jacks are designed for installation in faceplates, surface mounting boxes and modular patch panels. Keystone jacks are widely used for connection workplaces to local network.

NIKOMAX Essential keystone jacks («ET» series) are the new design that provides the solution of 180 degrees toolless. This series keystone jacks work together with NIKOMAX full series of cables, patch cords, and patch panels as well. The Toolless design requires no punch down tool, so the termination of keystone jacks will become easier.

NMC-KJSA2-ET-MT

Essential Series keystone jack , Shielded, Toolless, 180 degrees, Category 6A

Detailed characteristics

Characteristic	Value				
Category	6A				
Bandwidth, MHz	500				
Connection style	Fully shielded				
Compliance	Exceeds the requirements of the standards: ISO / IEC 11801, EN 50173 and ANSI / TIA -568-C.2				
Supported applications	10BASE-T, 100BASE-TX, 100BASE-T4, 1000BASE-T, 10G-BASE-T (For Cat. 6 & 6A),				
Supported applications	ATM-25, ATM-51, ATM-155, 100VG-AnyLan, TR-4, TR-16 Active, TR-16 Passive				
Temperature ranges	Storage from -40 to +70 ° C. Installation from 0 to +50 ° C. Operation from -10 to +60 ° C				
Warranty	1 year				
Connector type	RJ45/8P8C				
Connector material in connector	Phosphor bronze				
Contact coating material	Gold (50 micro-inches)				
Number of cable connections	Not less than 750				
Type of IDC contacts (seal)	180 degrees - Toolless				
Layout diagram	T568A/B				
Installation	Patch panels, surface mount box, faceplate				
Protection level	Metallic				
Permissible diameter of conductors	~22-26 AWG (0.40-0.60 mm)				
Dimensions (WxHxD), mm	16.2 x 21.9 x 28.2				
Packaging	Individual - Plastic bag
