

The NMC-S501B tool is designed for stripping and trimming twisted pair, coaxial and flat multicore cables. The tool is equipped with 2 guiding sockets for cleaning round cables (with an outside diameter of up to 9.5 mm), two knives with limiters for stripping flat cables. There is also a knife for cutting cables.

A distinctive feature of this tool is the presence of the wheel, which allows you to accurately and conveniently adjust the depth of the notch. For example, it is possible to extend the knife by exactly 0.5 mm, which will guarantee that only the outer sheath will be cut without damaging the core insulation or cable shield.

Ordering Table

P/N	Individual packing		Collective packing			Freight packing		
	Dimensions, mm	Weight, kg	Quantity	Dimensions, mm	Weight, kg	Quantity	Dimensions, mm	Weight, kg
NMC-S501B	220x100x15	0.064	10 pcs.	220x180x85	0.9	100 pcs.	375x235x460	10.0

Detailed characteristics

Characteristic	Value
Housing material	ABS plastic
Temperature ranges	Storage from -20 to +70 ° C. Operation from -10 to +50 ° C
Color	Gray
Number of ports for main cables	1 Year
Packaging	Individual - Blister bag
Stripping the round cable	Up to 9.5 mm
Adjusting the stroke of the knife	Yes
Stripping the flat cable	Yes
Cropping the cable	Yes
